

## June 2013

'June is Stroke Month'

To celebrate **June is Stroke Month**, numerous activities involving stroke education and public awareness events have been scheduled across Toronto.

In support of heart disease and stroke research, events included the **Heart & Stroke's Big Bike**, which is a team event geared towards community organizations, companies and groups.

Joining this event were members of the University of Toronto Stroke Program (UTSP), including the South East Toronto Stroke Network (team name: St. Michael's Hospital Stroke Unit 2013) and the Toronto West Stroke Network (team name : Stroke Spokes).

South East Toronto Stroke Network's 'St. Michael's Hospital Stroke Unit 2013' team at the BIG BIKE event.

Toronto West Stroke Network's 'Stroke Spokes' team at the BIG BIKE event.

Numerous hospital and community organizations also held successful public awareness campaigns that included interactive booths to raise stroke awareness.

For more photos of the BIG BIKE event or a listing of Stroke Month activities, please visit the [UTSP website](#)

Similar to other sites across the city, the North & East GTA Stroke Network organized an interactive booth to raise stroke awareness at Sunnybrook Health Sciences Centre.
