

## Listening

ICON	Title/Description/Cost
	<p><b>Lingraphica TalkPath Listening</b> <span style="float: right;"><b>FREE</b></span></p> <p>TalkPath Listening guides adults with aphasia or apraxia through a series of exercises designed to improve overall speech. The exercises in this app work on word discrimination, word association and short-term memory, and are based on general treatment principles widely used by speech-language pathologists to improve auditory comprehension — the ability to hear and understand language. The exercises provide sound and visual inputs at varying degrees of difficulty designed to stimulate language processes that have been disrupted due to a stroke.</p>
	<p><b>Language TherAppy Lite</b> <span style="float: right;"><b>FREE</b></span></p> <p>A free trial of Language TherAppy, a 4-in-1 app combining Comprehension, Naming, Writing, and Reading TherAppy. Full version available for \$59.99.</p>
	<p><b>Audio books</b> <span style="float: right;"><b>FREE</b></span></p> <p>A collection of classic audio books.</p>
	<p><b>Noise Sniffer</b> <span style="float: right;"><b>\$0.99</b></span></p> <p>Measures background noise in dB and gives verbal description of noise level.</p>
	<p><b>Touch and Learn – ABC alphabet and 123 Numbers</b> <span style="float: right;"><b>FREE</b></span></p> <p>Four options presented visually (numbers mixed with letters), target item presented verbally; immediate feedback provided.</p>
