

The mobile phone/device applications listed below are to be used in addition to medical therapy to improve abilities. Some applications may have an associated fee.

***Disclaimer:** These applications are meant to be used in addition to therapy to help develop skills, NOT as an alternative to medical advice or treatments.

Note:

Please also inquire whether your telephone carrier has a voice mail to text transcription option which may be helpful.

These mobile applications were compiled by the West GTA Stroke Network. Information contained may be subject to change. Please visit the mobile app companies' websites for more information.
