

The North & East GTA and Toronto West Stroke Networks Presents:

Provincial Stroke Rounds

Beth Linkewich
Regional Director,
North & East GTA Stroke Network

Nicola Tahair
Regional Director,
Toronto West Stroke Network

Building a Sustainable Integrated Stroke System of Care:

A population-based approach to bundled care

Wednesday October 7th, 2020 0800-0900h

Objectives: Upon completion, participants will be able to:

1. Identify the value of utilizing a population-based approach to support sustainable integration of stroke care
2. Describe key learnings and enablers for system level bundled care planning
3. Discuss considerations for the broader application of a population-based approach to stroke bundled care, including in rural settings
