

Ready to take your use of the CO-OP Approach™ to the next level?

Join us on **January 31st, 2024 8:30 am- 12 pm** for:

Maximizing CO-OP Effectiveness with Family, Caregiver, and Health Care Provider Support

At this workshop you will expand your skills for practical applications of the CO-OP Approach™ including :

- ✓ how to effectively use the CO-OP Approach™ with families, caregivers and health care providers who are non-CO-OP trained to support improved outcomes for the person with stroke (e.g. teaching points, familiarization with handouts and other resources, etc.)
- ✓ key considerations for the development of patient groups utilizing the CO-OP Approach™

Target Audience: Please note that you must have completed the CO-OP Workshop and consolidation session to be eligible to take this course.

Questions? Please contact Jaclyn Gilpin
jaclyn.gilpin@uhn.ca

*The CO-OP Approach™ is a functional, patient goal centred, problem solving approach that is associated with improved function, activity performance, participation and self-efficacy in persons with stroke.
