Balancing stewardship and quality in stroke dysphagia management: Updates on an online independent TOR-BSST© screener training program

Wednesday June 5th, 2024, 0800-0900h

Objectives: Upon completion participants will be able to:

1. Describe the Toronto Bedside Swallowing Screening Test (TOR-BSST©)
2. Describe the benefits of an online independent TOR-BSST© screener training program
3. Explain how the online independent screener training program compares to the original 4-hour in person training program
4. Understand how to implement the online screener training program across the stroke care continuum
