University of Toronto

Stroke Neurologist,
Sunnybrook Health Sciences Center

Systems of Care for Acute Stroke in Ontario

November 6, 2024, 0800-0900h

Objectives: Upon completion, participants will be able to:

1. Discuss the impact of organized stroke systems of care in Ontario
2. Examine opportunities to optimize stroke care within the current system to support stroke best practice implementation
3. Understand opportunities to improve access to endovascular thrombectomy in rural areas of Ontario
